AUTOMATIC BASKET CAROUSEL

DETAILS

The foodlife basket carousel makes the perfect combination together with the foodlife GEWA1500 and other washing systems. The basket carousel is placed directly at the out feed of the washing system. Once the basket is filled according to the weight specifications which are pre-set in the Foodlife basket carousel, the carousel will turn automatically the system has 4 positions for baskets.

The system is hygienic designed and constructed in stainless steel 304.
